

Help at Home

How it Works

- If you are seeking private care, we can arrange to visit you in your home to discuss your needs and develop a tailored service plan to support you. Once you are enrolled, we simply start your services.
- If you are seeking support through NDIS/My Aged Care, we can assist you in arranging an assessment of your needs and eligibility for funding.
- Once you are approved for services, we can organise support in a way that best fits you.

Who We Are

Our Services

Home Care Packages

A Home Care Package is an individually funded program offered by the Government to subsidise the cost of a person's care to enable them to remain living independently in their own home. It gives you the choice and flexibility to have services tailored to meet your specific care needs.

Once approved, you will be placed on a government waiting list until a suitable package becomes available.

Once a package is assigned to you, you will receive a letter with a reference number.

TYPES OF PACKAGES

There are four different types of Home Care Packages that have services to meet different needs.

LEVEL 1 is for basic care

LEVEL 2 provides lower-level care

LEVEL 3 provides intermediate care

LEVEL 4 provides high levels of care

Our mission is to develop services to enhance quality of life and individual outcomes by delivering to people who are ageing or living with disability, exceptional personalised in-home community support services that add value to their lives.

Private Care

Our professional support team can visit you at home and discuss your particular needs.

Whether you need a little help with domestic tasks or shopping, or would like to get out and about more, or need 24-hour care, we will find a fee-for-service solution to meet your requirements.
